FOREWORD

JARDA VAVŘINA

Founder Prague Harley Days

Two years ago, a well-known BMW rider - none other than the Czech President - **posted on Facebook** after attending Prague Harley Days. He wrote about how much he enjoyed the event, especially because it was the MOST INCLUSIVE event he had ever been to. He didn't mention why this surprised him so much, but we all know, right? Because Harley riders are supposed to be snobs, posers who don't let anyone into their circle. Except, that's not true at all. It's just one of many myths. And you, the ones who've been coming to this event for twelve years,

are proof that it's a myth. Nowhere else do such seemingly different groups mix so perfectly and still have an amazing time. Motorcycles, strollers, locals, foreigners, young, old, guys, girls—eating, drinking, listening, watching, chatting, not causing any fuss, and just enjoying themselves, creating a unique atmosphere. You're awesome—thank you for that!

ZDENĚK JURÁSEK

President of the Czech Route 66 Association

Last year, I was invited to live up the program of Prague Harley Days by broadcasting my music station, Radio 66. As a long-time enthusiast of America's iconic Route 66, I was thrilled to immerse myself in the American atmosphere at the event. I thought it might be a good idea to bring a little bit of the Mother Road's spirit to this already enjoyable and well-established gathering. Since the organizers responded positively to my suggestion, we now have a great opportunity this weekend to

showcase the charm of the "Old Highway 66" to a broad audience, both local and international. After all, promoting the world's most famous road is the primary mission of our Czech Route 66 Association. I'm also happy that the European Route 66 Festival will host "Route 66 Figures" from America, led by Oklahoma's Lieutenant Governor, Mr. Matt Pinnell, who is himself an avid fan of Route 66. So, I invite you all to join us. Pavilion B and the Radio 66 broadcast tent—that's where you'll find us!

Prague Harley Days, round twelve—wow, that's quite a stretch. Heck, at twelve, you can already start taking kids on the back of your bike. And here come those doubts again—should we call it a day? But then you all keep asking, "When is it happening? What's new this year? Where can I find you there? How do I join the parade, and when does it start? What kind of beer will you have, and what bands are

playing?" And suddenly, I find myself looking forward to it all over again, knowing I'll be bumping into you guys. Some of you, I don't get to see all year. Yeah, we've all got a lot going on, but it's great that we can carve out time for our holiday, for ourselves, and for our friends. We'll take our bikes out of the garage and treat ourselves. I can't wait to see you at the 12th Prague Harley Days.

JIRKA HILGART

MasterChef Czech Republic Season 1 Finalist

For me, this event has always been an unbelievable three days where almost anything is possible! Three days filled with American motorcycles, cars, and a true sense of freedom! But this year, I'm not just a rider soaking in the smiles and experiences. I've crossed over to the other side - as an organizer. I'm in charge of the Smoke & Fire Kitchen, and I'm doing everything I can to make sure you have a blast. Whether you're here for the bikes and see food

just as fuel, or you're a hardcore BBQ and grilling fan, I want the Smoke & Fire Kitchen to grab your attention. We've got something for everyone. We've invited both familiar and new faces, so we can learn from them and, of course, taste what they're cooking up. From the bottom of my heart, thank you to everyone who's jumping in with us! Come find me at the Smoke & Fire Kitchen, and let's get grilling together!

Smoke & Fire

The biggest BBQ and grilling event of the year!

Barbecue has its roots in ancient times when people first used fire to cook their food. Sure, the first steak probably came from a mammoth, but over the centuries, the techniques and tools have evolved. The core principle remains unchanged: using direct or indirect heat to achieve the unique flavors and textures of grilled food. In many cultures around the world, barbecue has become not just a method of cooking but a social event, and that's exactly what this year's **Smoke & Fire Kitchen** is all about. This extraordinary three-day festival of fire and smoke is joining the **legendary All American Fest/Prague Harley Days**. It's the ultimate mix of food, motorcycles, and American culture.

Freestyle Motocross Show & Night Jumps!

• What does nighttime mean for freestyle riders? The night lighting and distorted perspectives make approaching and jumping far more challenging. **This year, we're taking things up a notch by introducing a truly extraordinary element – night freestyle!**

elite riders like **Petr Pilát**, 17-year-old **Dominik Vaněk**, and 12-year-old **Matyáš Novotný**. These young talents are already competing at the level of seasoned pros and even perform at the **O2 Arena** at **FMX Gladiator Games**.

THE GRAND FMX TRICKS will astonish you with their complexity and grace. Enjoy an **unforgettable show full of tension and excitement**. Each jump and trick will be executed with maximum precision and determination. **Get ready for moments of adrenaline, thrill, and awe** that you'll remember long af-

ter the last lights go out. We want to immerse you in the world of freestyle and show you just how exhilarating and demanding this sport can be. **Join us** on this journey into the unknown and experience what it's like to witness an extraordinary, **unforgettable freestyle show!**

We're bringing this adrenaline-pumping event into the dark, with performances scheduled for Friday and Saturday from 8:30 PM to 9:00 PM. For freestyle riders, this means several things. Night lighting dramatically alters perspectives and optical illusions can be tricky, making approaches and jumps significantly more difficult. **Each rider needs to be extremely focused** and aware of their spatial position,

as even a small mistake can have big consequences. To ensure maximum safety and allow riders to showcase their best, we've meticulously designed and installed lighting that is both effective and non-distracting. The lights must be positioned high above the riders, which is a technically demanding task given their acrobatic stunts at heights of 12 meters.

GET READY FOR a breathtaking spectacle featuring freestyle

PUGNER DESIGN – Paint's Not Dead!

Since the first edition of **Prague Harley Days**, we have been organizing an exhibition for you. It was no different at last year's **All American Fest**, where we prepared the **New Bike Expo and H-D® HISTORY Museum**, celebrating two anniversaries: 95 years of the Harley-Davidson Club Praha and 40 years of the Harley Owners Group (H.O.G.®). This year's exhibition theme is

bike painting. Through a selection of builds, we'll show you what's possible and what you can get for your bike! You'll see the best work of **Olaf Pugner**, the master designer at **Pugner Design**, showcasing both earlier works and current trends, new motifs, and designs. In short, you'll experience the finest in airbrush art (portraits, etc.) and custom paint (custom painting and deco-

ration), whether on Radical builds, standard bikes, or bikes directly from the **Harley-Davidson® Praha** dealer, which fall under the small-scale paint program with pre-made templates and custom painting according to clients' wishes.

THE EXHIBITION will primarily feature Olaf's work from the past three decades, with each bike accompanied by a

description and additional interesting information. And why did we choose painting as this year's theme? Because no matter how many accessories you buy, nothing transforms a bike as dramatically as an airbrush!

Come and see for yourself!

MOVIE

DOGA Band on Screen

● Remember last year's rock tour with DOGA?

They set out to play right on **Route 66** with a big crew of their loyal fans. They nailed it, and the band really shone on America's iconic highway. Along with their music video for "Tak tohle je dobrý," director David Havlena and his team filmed loads of great stuff for a documentary about their adventurous trip with frontman Izzi. This year at the European Route 66 Festival, we're premiering **ROUTE 66 & ROCK'N'ROLL**, a documentary about DOGA's epic journey down the world's most famous road. The band members will be the-

re in person! So, bring your autograph book and swing by **Pavilion B** to catch "DOGA on Film."

Clash of the Bands

Seeing one band on stage is pretty standard. But two bands, each with their own gear? Now that's something you don't see every day! Get ready for the premiere of this year's edition—a one-of-a-kind showdown packed with cover versions of well-known hits, all centered around the theme of Route 66. Don't miss the electrifying clash on the main stage by Křižík's Fountain on Saturday, August 31, at 7:00 PM. **The challenge is set!** Two Czech bands, **Sound City** and **Wotazník**, are stepping

into the ring, and they've got 10 songs we've given them to master. Each band will put their own spin on 6 of these tracks. One band will kick things off with a verse and chorus, then the jury will stop them, and the other band will pick up right where they left off. Both groups will pull out all the stops to win over the audience and the jury with their unique takes, showing off the best of their skills. The Clash of the Bands promises endless entertainment! So make sure you're there and cast your vote for the winner!

1. Výstaviště Holešovice: We'll kick off from the Exhibition Grounds in Holešovice, the perfect starting point for our parade.

2. Štvanice: We'll ride past Štvanice Island, situated on the Vltava River between Holešovice and Karlín. Known for its whitewater slalom channel, it's a training spot for athletes, including the Czech Olympic team.

3. Pražská Magistrála: Our parade continues along the Prague Ring Road, a major traffic artery offering many captivating views.

4. National Museum: At the top end of Wenceslas Square, you'll see the impressive National Museum. This historic and cultural landmark houses extensive collections related to Czech history, nature, and culture.

5. Nusle Bridge: Spanning the Nusle Valley and part of the Ring Road, this crucial transport link offers panoramic views of Prague and the Vltava River, providing an ideal photo op for your riding partner.

6. Congress Center: It was built in the 1970's and it's locally nicknamed "Moby Dick".

LINING UP ON SATURDAY AT 9 A.M., SEE MAP OF THE EVENT. START AT 10.30 A.M.

7. Pražského povstání Street: Named after the pivotal World War II event when Prague was liberated from Nazi occupation, this street holds significant historical value.

8. Podolí Maternity Hospital: One of the most prestigious healthcare facilities in the Czech Republic, specializing in care for pregnant women, mothers, and newborns.

9. Vyšehrad: This historic site, which served as a royal seat as early as the 11th century, includes a fort and castle overlooking the Vltava River.

10. Dancing House: Located on the Vltava River at the corner of Rašínovo nábřeží and Jiráskovo náměstí, this building is famous for its unique, dynamic architecture reminiscent of a dancing couple, "Ginger and Fred," inspired by Fred Astaire and Ginger Rogers.

11. Charles Bridge: From the National Theatre, you'll catch a view of Charles Bridge, which has connected Prague's Old Town and New Town since the 14th century. As you ride from the National Theatre to Charles Bridge, you'll also see Prague Castle, the largest ancient castle complex in the world.

14. Barricade Bridge: An example of functionalist architecture with cubist elements, notable for its progressive design and concrete construction.

15. Troja Bridge: One of Prague's newest bridges, this modern structure connects Holešovice with Troja over the Vltava River. Its sleek, white arch design adds an aesthetically pleasing element to Prague's skyline.

We'll finish our ride again at the Prague Exhibition Grounds, where you can chill and absorb all the impressions in the zones we've prepared for you.

Join us and discover Prague from a perspective on two wheels. We look forward to seeing you!

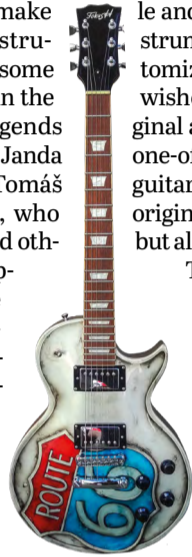

COMPETITION

Route 66 Guitar Contest!

• Win a one-of-a-kind Fokus ROUTE 66 electric guitar crafted by Martin Švehla!

You'll find this beauty on the main stage. Come by, play a tune, and we'll record your performance. After the event, we'll pick the player who impresses us the most. We want this guitar to go to someone who'll truly appreciate it and knows how to make it sing. Martin's instruments are played by some of the top guitarists in the country, like the legends you know well—Petr Janda from Olympic and Tomáš Krulich from Kabát, who work with Martin and other experts on developing and testing these guitars. Fokus electric guitars, crafted for professional musicians, are road-tested on tours all across the Czech Republic. With over 20 years of experience, Martin Švehla understands

the alchemy of wood and how the neck of a guitar should harmonize with its body and shape. He's got the patience to wait—wood needs time to mature, and the magic is in the waiting and his deep understanding of professional guitarists (and their fingers), for whom most Fokus electric guitars are made.

under the Fokus brand. Once the guitars arrive, the process of waiting and testing begins as the wood matures, and the right sound is found—something only a true pro can recognize. Martin prepares the guitar for a specific musician based on their style and the sound of the instrument, and then he customizes the design to their wishes. Everything is original and guaranteed to be one-of-a-kind! Professional guitarists demand not just originality and great sound but also a reasonable price. That's Martin's mission. The magic of his work lies in the fact that Fokus guitars are utterly unique, and their top-tier performance would fetch hundreds of thousands on the global market.

WHAT'S ALSO interesting is his sales strategy. These instruments aren't for everyone. Martin knows the value of his work and sells his guitars under his own conditions to those he's met personally. That's why he has friendly relationships with our best musicians, who respect him as a professional.

AND NOW, it's your chance! If you're a guitarist and you meet the conditions of our WIN A ROUTE 66 GUITAR CONTEST, you have a ONE AND ONLY opportunity to own a professional instrument that connects you with the top pros on our music scene!!! Come, play, and leave us your contact info at the event!

THE DESIGN and development of new models and configurations happen right here in the Czech Republic, but the actual manufacturing is done in South Korea, from where Martin imports the guitars. This isn't just local assembly—it's high-level, professional production

PUBLIC ENEMY & Pepa Sršeň!

“The bike, after perfecting all the details that took the most effort, was finished in June 2024. We transported it, and then the new engine was broken in and fine-tuned by **Honzá Tománek**. It's got the **Harley-Davidson 131Ci Stage IV**

Kit from Screamin' Eagle, which is a racing engine they use in the States, just not as cranked up. The **GP baggers** they race with are total nonsense. **They put one engine in for the race and go eight laps. Then they throw the**

engines away because they can't handle it. It runs like a superbike. It's insane. They're racing at **Laguna Seca** just one second slower than superbikes. **That's not normal, man.** I liked that and I have to admit, I built this bike over time

for my own ego. I confess, I'm an individualist, and **I really enjoy blowing past all those arrogant speed junkies** with their fancy bikes. They look at it, laugh at it, and then they don't get how it can perform like that when they get their butts handed to them. I mean, when you're on a bike and a woman passes you, you might still talk your way out of it, but **when a Harley with bags leaves you in the dust, you're completely screwed!** This bike is brutal. We've hit crazy numbers: 240 Newton meters, 190 horsepower, and 270 kg in weight.”
